prayer is a phenomenon which seems to be characteristic not only of participants in every religion but also men and women who do not identify with traditional religions it can be practised even by those who do not believe either in a god or transcendent force in this sense therefore we may assert that the prayer is a typically human activity that has accompanied the development of different civilizations over the course of the centuries both the material issues of concrete daily life as well as more symbolic elements expressed through words gestures body positions and community celebration are brought together in the act of praying

dealing with a single theme in each volume the arsr intends to tackle the relationship between the practices and the dynamics of everyday life and the different religions and spiritualities within the framework of the post secular society

in the last decade the supreme court has handed down a remarkable series of decisions invalidating congressional legislation in the name of federalism or states rights most of these were decided by a razor thin majority of five justices the cases fall into four categories first in two cases the court reaffirmed and expanded the principle of state sovereign immunity in a second pair of cases the court held that state governments other than their courts cannot be commandeered by congress to assist in the enforcement of federal law third for the first time since the early new deal the court but the familiar 5 4 margin invalidated a federal statute enacted pursuant to the interstate commerce clause finally the court adopted a new and extremely demanding standard of review for congressional action under section 5 of the fourteenth amendment which empowers congress to enforce the amendment by appropriate legislation the 13 articles in this volume of the annals deal with the various aspects of the supreme court s federalist revival and the principles underlying it the first three articles discuss these principles in comprehensive terms each of the next three articles focuses on a particular aspect of the federalism principle or its judicial enforcement these articles are followed by a contribution with regard to congress ability to escape the constitutional limitations of federalism by means of conditional grants under the spending clause the next three articles point up alternative themes purposes or agendas in the court s federalism decisions another two contributions focus on the anti commandeering issue but place that issue in a broader context the final article illuminates from several perspectives the four year old federal habeas corpus statute the anti terrorism and effective death penalty act the supreme court s recent decision in bush v gore issued shortly before this volume went to press dramatically reverses the case and principles that are the subject of the articles in this volume perhaps the best justification for the court s action is not legal but political the majority justices or some of them may have looked down the road and seen a constitutional catastrophe in the making unfortunately there is also a less benign explanation one or more of the justices may have reached the conclusion that if the presidential outcome were going to be determined by an act of judicial will it would be their will and not that of the florida supreme court

this work is a collection of essays that describe and analyze religion and regime relations in various nations in the contemporary world the contributors examine patterns of interaction between religious actors and national governments that include separation support and opposition in general the contributors find that most countries have a majority or plurality religious tradition which will seek a privileged position in public life the nature of the relationship between such traditions and national

policy is largely determined by the nature of opposition a pattern of quasi establishment is most common in settings in which opposition to a dominant religious tradition is explicitly religious however in some instances the dominant tradition is associated with a discredited prior regime in which a pattern of legal separation is most common conversely in some nations a dominant religion is for historical reasons strong associated with national identity such regimes are often characterized by a lazy monopoly in which the public influence of religion is reduced

this book focuses on the utility and application of discourse theory and discourse analysis in the sociological study of religious change it presents an outline of what a discursive sociology of religion looks like and brings scholarly attention to the role of language and discourse as a significant component in contemporary processes of religious change marcus moberg addresses the concept of discourse and its main meta theoretical underpinnings and discusses the relationship between discourse and religion in light of previous research the chapters explore key notions such as secularism and public religion as well as the ideational and discursive impact of individualism and market society on the contemporary western religious field in addition to providing scholars with a thorough understanding and appreciation of the analytic utility of discourse theory and analysis in the sociological study of religious change the book offers a cohesive and systematized framework for actual empirical analysis

examines how the roles of men and women in ireland have changed a great deal over the years and many of these changes can be attributed to the dual influence of the irish women s movement and ireland s conclusion in the european union this book reflects the gap between the legal and societal changes in the irish society

the book provides heuristic models from evolution and neuroscience to explain the association between altruism and health and examine potential public health and practical implications of the existing data

according to the us census bureau about 40 million americans will be age 65 or older in 2010 by the year 2040 the population of older adults in the united states us will double to about 80 million with the greatest rate of increase in those aged 85 years and older this population ageing trend is likely to parallel the increase in the incidence of disability and chronic conditions and to bring about

challenges to late life well being despite advances and popularity of science and technology over the past century national surveys have consistently recorded high rates of religious or spiritual involvement in the us especially among older persons and disadvantaged populations in the past decade scientific investigation in the protective effects of faith on physical and mental health has surged yet how faith factors precisely influence health related functions and well being in late life remains under investigated clearly more comprehensive research evidence is needed to meet ageing americans spiritual needs the chapters in this book explore common topics during the later part of life including disability declining functioning nursing home residency death and dying terminal illness heart failure major medical operation vision impairment and exercise and fitness in our interdisciplinary investigations contributors include gerontologists from various disciplines and professions i e psychology sociology social work theology public health and medicine all these empirical studies are based on social science theories to meet the needs of a broad array of various audiences they also offer some evidence based implications for practices
